- (3) The four big thematic sectors.
- (4) Most relevant and repeated markers - List of Life Indicators on the Website (CONCEITO / 9.).
- (5) Exceptional top experiences.
- (6) Lack of information. Respondent chose not to respond.
- (7) Particular situations. Possibly relevant for specific careers.

### Importante note:

The LQ-quest cannot avoid false or abusive use. All the answers are the full responsibility of the respondent. Results far above the average values (>80%) should be questioned. And, above all, any indicator with a score of 100% is totally out of forecasting.

DATA PROTECTION: The LQ-quest was conceived in order to maintain total anonymity of the respondent. Your right to privacy and the need of compliance in relation to the (new) General Data Protection Regulation – GDPR took us to the development of a system of protection that goes beyond pseudonymization and encryption of your data. The enquiries just have the indication of gender and age, while the reports are only numbered. This way the identified or identifiable person will never be configured.
